CKI Group Managing Director Wins Finance Monthly CEO Awards 2014

(3 October, 2014 – Hong Kong) – Mr. H L Kam, Group Managing Director of Cheung Kong Infrastructure Holdings Limited (“CKI” or “the Group”), has been named the winner of this year’s Finance Monthly CEO Awards.

Every year, Finance Monthly Magazine identifies and honours the most successful, innovative and visionary CEOs across the globe.

The Award recognizes corporate leaders who deliver results and have achieved considerable accomplishments in their respective sectors. The winners must possess all common leadership attributes, and must have shown the strategic foresight and ability to expand their businesses into new markets and generate strong profits.

Under Mr. Kam’s stewardship, CKI has over the past 17 years evolved from a Hong Kong/Mainland China focused company into a leading global infrastructure player with diversified investments spanning across Hong Kong, Mainland China, the United Kingdom, the Netherlands, Australia, New Zealand and Canada.

CKI has achieved a strong track record of growth and have generated continued returns for our shareholders. Last year, the Group has recorded year-on-year profit growth of 23% to reach HK\$11.6 billion; this also represents a doubling of profit from that of 5 years ago; more than tripling of profit from that of 10 years ago; and more than four times its profit of 15 years ago. CKI has also recorded an increase in dividend every year for 17 years since listing.

The Finance Monthly CEO Awards is compiled by a dedicated team of researchers who draw on the views of thousands of stakeholders including investors, analysts, executives, employees and media professional worldwide.
