

FINANCIAL REVIEW

FINANCIAL RESOURCES, TREASURY ACTIVITIES AND GEARING RATIO

The Group's capital expenditure and investments were funded from cash on hand, internal cash generation, syndicated loans, notes, share placement and other project loans.

As at 31st December, 2013, cash and bank deposits on hand amounted to HK\$5,958 million and the total borrowings of the Group amounted to HK\$13,029 million, which included Hong Kong dollar notes of HK\$260 million and foreign currency borrowings of HK\$12,769 million. Of the total borrowings, 87 per cent were repayable between 2015 and 2018 and 13 per cent were repayable beyond 2018. The Group's financing activities continue to be well received and fully supported by its bankers.

The Group adopts conservative treasury policies in cash and financial management. To achieve better risk control and minimise the cost of funds, the Group's treasury activities are centralised. Cash is generally placed in short-term deposits mostly denominated in U.S. dollars, Hong Kong dollars, Australian dollars, New Zealand dollars, Pounds Sterling or Renminbi. The Group's liquidity and financing requirements are reviewed regularly. The Group will continue to maintain a strong capital structure when considering financing for new investments or maturity of bank loans.

As at 31st December, 2013, the Group maintained a net debt position with a net debt to net total capital ratio of 8 per cent, which was based on its net debt of HK\$7,071 million and net total capital, which represents the total borrowings plus total equity net of cash and bank deposits, of HK\$87,669 million. This ratio was higher than the net debt to net total capital ratio of 5 per cent at the year end of 2012. This change was mainly due to the funds utilised for investments in the waste management projects in New Zealand and the Netherlands during 2013.

To minimise currency risk exposure in respect of its investments in other countries, the Group generally hedges those investments with the appropriate level of borrowings denominated in the local currencies of those countries. The Group also entered into certain interest rate and currency swaps to mitigate interest rate and other currency exposure risks. As at 31st December, 2013, the notional amounts of these derivative instruments amounted to HK\$45,031 million.
