We are pleased to report that Cheung Kong Infrastructure Holdings Limited (“CKI”) recorded an 8.5 per cent. growth in profit before tax during the first six months ended 30th June, 2003. As a result of a change in accounting rules relating to deferred tax policy and an increase in corporate tax rate in Hong Kong, profit attributable to shareholders after tax turned into a slight decline of 2.8 per cent.

The unaudited consolidated profit attributable to shareholders for the first six months ended 30th June, 2003 for CKI was HK\$1,403 million, and earnings per share were HK\$0.62.

The Board of Directors has declared an interim dividend for 2003 of HK\$0.215 per share (2002: HK\$0.215). The interim dividend will be paid on Friday, 3rd October, 2003 to shareholders whose names appear on the Register of Members on Thursday, 2nd October, 2003.

## ► Interim Results (Cont'd)

### Solid Core Businesses

#### 1. Hongkong Electric

Hongkong Electric Holdings Limited (“Hongkong Electric”) has been a reliable, long-term income driver for CKI since 1997 when the investment was made. During the period under review, a drop of 6 per cent. in accounting profit was recorded due to a change in accounting rules which involves the revised Statement of Standard Accounting Practice on Income Taxes relating to deferred taxation provision, the increase in corporate tax rate as announced by the SAR Government in March 2003, and the sluggish domestic economy caused by the Severe Acute Respiratory Syndrome epidemic.

#### 2. Infrastructure Investments

Energy and transportation investments in Australia and Mainland China continued to deliver impressive performances, achieving a profit growth of 10 per cent. compared with the same period last year.

##### Australian Infrastructure Experienced Solid Organic Growth

The Australian portfolio accounted for approximately 28 per cent. of the Group’s profit contribution. Envestra Limited, ETSA Utilities and Powercor Australia Limited continued to generate stable and significant income, while CitiPower I Pty Ltd., the newly acquired investment made in August 2002, brought in a meaningful 5 per cent. additional profit during the first half of the financial year.

##### China Power Witnessed High Demand

The 1,900 MW China power portfolio delivered considerable cash inflow and profit for the Group during the period. Power supply shortages and high demand growth in Mainland China – especially in the Pearl River Delta Region – have led to new power generation records for the Group’s Zhuhai Power Plant. During the same period, the Group’s other three coal-fired power plants and cogen plants in Mainland China operated smoothly and made steady contributions to CKI.

##### China Transportation Saw Double-Digit Growth

High traffic growth was recorded for the Group’s transportation projects in Mainland China resulting in double-digit growth in revenue.

##### Asset Consolidation Made Good Progress

Divestment of certain assets in Mainland China continued during the period. The Group’s interests in the Yueyang Water Plants in Hunan Province have been disposed of with a capital gain of HK\$11 million, and divestments of the Jiangmen Jianghe Highway and Shenyang roads are in progress.

### Strong Financial Position

Prudent financial management and the steady cash flow generated by the maturing investment portfolio, have provided CKI with a strong balance sheet capable of supporting new growth initiatives. As of 30th June, 2003, the Group's financial position is as follows :

- Cash position of HK\$6,633 million.
- Net debt of HK\$4,931 million.
- Net debt to equity ratio of 18 per cent.
- "A-" credit rating by Standard & Poor's.

### Outlook

Looking ahead, CKI will continue its efforts to maximise profit through organic growth and new investment. Construction of the Sydney Cross City Tunnel – a major infrastructure project in New South Wales, Australia – is making good progress and is expected to be completed by the end of 2005. CKI is equipped with strong financials which will enable it to capitalise on new infrastructure investment opportunities. The soft global economic environment has presented a number of quality assets that offer secure returns and steady income. The Group is keeping a close eye on a number of potential energy, transportation and water projects spanning Australia, Canada, the United Kingdom and Mainland China.

I would like to thank the Board, management and all staff for their hard work and dedication, as well as our shareholders for their support and confidence in the Group.

## ► Financial Review

### Financial Resources, Treasury Activities and Gearing Ratio

The Group's capital expenditure and investments were funded from cash in hand, internal cash generation, syndicated loans, notes issued and other project loans.

As at 30th June, 2003, total borrowings of the Group amounted to HK\$11,564 million, which included Hong Kong dollar syndicated loan of HK\$3.8 billion, foreign currency borrowings of HK\$7,720 million and RMB bank loans of HK\$44 million. Of the total borrowings, 3 per cent. were repayable in 2003, 80 per cent. repayable in 2004 to 2007 and 17 per cent. repayable beyond 2007. The Group's financing activities continue to be well received and fully supported by its bankers.

The Group adopts conservative treasury policies in cash and financial management. To achieve better risk control and minimise the cost of funds, the Group's treasury activities are centralised. Cash is generally placed in short-term deposits mostly denominated in U.S. dollars, Hong Kong dollars or Australian dollars. The Group's liquidity and financing requirements are reviewed regularly. The Group will consider new financing while maintaining an appropriate level of gearing in anticipation of new investments or maturity of bank loans.

As at 30th June, 2003, the Group maintained a gearing ratio of 18 per cent. which was based on its net debt of HK\$4,931 million and equity of HK\$27,322 million. This ratio was lower than the gearing ratio of 21 per cent. at the year end of 2002 mainly because of the repayment of a short-term Australian dollar bridging loan during the period.

To minimise currency risk exposure in respect of its investments in other countries, the Group has a policy of hedging those investments with the appropriate level of borrowings denominated in the local currencies of those countries. As at 30th June, 2003, the Group has swapped the floating interest rates of its borrowings totalling HK\$5,499 million into fixed interest rates. The Group will consider entering into further interest and currency swap transactions to hedge against its interest rate and currency risk exposures, as appropriate.

# ► Notes to the Interim Financial Statements

## 1. BASIS OF PREPARATION

The interim financial statements are prepared in accordance with Statement of Standard Accounting Practice (“SSAP”) 25 “Interim Financial Reporting” issued by the Hong Kong Society of Accountants and Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The presentation and accounting policies used in the preparation of the interim financial statements are consistent with those used in the Group’s annual financial statements for the year ended 31st December, 2002, except that the Group has adopted SSAP 12 (Revised) “Income Taxes” which became effective on 1st January, 2003.

Upon adoption of SSAP 12 (Revised), full provision was made for deferred tax using the balance sheet liability method, whereby deferred tax is recognised in respect of all temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit of the corresponding period, with limited exceptions. In prior periods, partial provision was made for deferred tax using the income statement liability method whereby deferred tax was recognised in respect of timing differences arising, except for those timing differences which were not expected to reverse in the foreseeable future.

In the absence of any specific transitional requirements in SSAP 12 (Revised), the new accounting policy has been applied retrospectively by means of a prior year adjustment. Cumulative effects from this change in accounting policy on the Group’s balances at 1st January, 2003 include an increase in deferred tax liabilities by HK\$192 million (2002: HK\$141 million), decreases in interests in associates, retained profits, contributed surplus, investment revaluation reserve and exchange translation reserve by HK\$2,131 million, HK\$713 million, HK\$1,553 million, HK\$46 million and HK\$11 million (2002: HK\$2,055 million, HK\$614 million, HK\$1,553 million, HK\$28 million and HK\$1 million) respectively. In addition, the effects of the change on the Group’s results, investment revaluation reserve and exchange translation reserve for the six months ended 30th June, 2002 are an increased charge to taxation of HK\$48 million, a deferred tax credit of HK\$13 million and an increased charge to exchange translation differences of HK\$3 million. Certain comparative figures have been restated accordingly.

The discretionary beneficiaries of each of The Li Ka-Shing Unity Discretionary Trust ("DT1") and another discretionary trust ("DT2") are, inter alia, Mr. Li Tzar Kuoi, Victor, his wife and children, and Mr. Li Tzar Kai, Richard. Each of Li Ka-Shing Unity Trustee Corporation Limited ("TDT1", which is the trustee of DT1) and Li Ka-Shing Unity Trustcorp Limited ("TDT2", which is the trustee of DT2) holds units in UT1 but is not entitled to any interest or share in any particular property comprising the trust assets of the said unit trust. Certain subsidiaries of CKH in turn together hold more than one-third of the issued share capital of HWL.

## ► Directors' Interests and Short Positions in Shares, Underlying Shares and Debentures (Cont'd)
